CONCORD MONITOR

Letter

A real life saver

Ralph Caron, Tamworth

Monitor staff

October 01, 2007 12:01AM

I would like to thank the American Legion for partnering with Life Line Screening to offer life-saving tests at an affordable price.

I would also like to thank Life Line Screening, without whom I would never have known there was a blockage in my carotid artery, which was deemed critical and could have caused a massive stroke if it hadn't been operated on immediately. Thank you for the expertise and concern that you showed me.

To the staff at the Concord Hospital - from the emergency room, the operating room and the recovery room to the patients' rooms - thank you for the professional way you handled my case.

To Dr. Myers and Dr. Murphy, the vascular surgeon, I thank you along with the operating staff, for the professional and caring expertise that was given to me.

To the attending nurses and the staff that cared for me, thank you for your loving care.

We in New Hampshire are very fortunate to have such an excellent hospital with such dedicated doctors, nurses and staff available to us in our time of need.
